🎮 3D Portfolio Cube – by Panteha Barzegar

Welcome to my personal interactive 3D portfolio – a lightweight experiment that blends geometry, code, and creative storytelling.

You can explore a rotating 3D cube, where each face represents a part of who I am, what I do, and what I create.

✨ Features

- 🌐 **Pure HTML + CSS + JavaScript** — no frameworks, no build tools.
- 📏 **Smooth 3D transitions** with `transform` and `perspective`.
- ⚙️ **Automatic rotation** for 4 seconds, then fully interactive via keyboard or touch.
- 🔄 **Theme toggle** (light & dark mode).
- ⚡ **Fast & lightweight** (~only a few KB).
- 📱 **Responsive** design, works on desktop and mobile.
